Wm. Lawrence Schaeffer

Dear Harold.

Glad you received my note and clipping A-OK. I have a lot of correspondence from "Jack" and his Pres. Asst Larry O'Brien (who is a cousin of mine) and have always believed he was a victim of a plot that was covered up. I find there are always "forces" that surround our Presidents which insulate him and his activities from those who elect him - and which can destroy him - if they can't control him! I've known Ron for 20 years and actively supported him - now I can't get a call or letter to him direct? Good luck

"Larry"
